

SHADE NETTING

Karatzis S.A. manufactures a wide range of knitted **Shade Netting** suitable for shadowing, micro climate and air flow control in greenhouses and nurseries.

MULTI CLIMA NETTING

- A revolutionary knitted net for protection of winter crops from early frost.
- Made from HDPE.
- Weight: 38 gr/m².
- Maximum width: 1 m – 16 m.
- Color: transparent.
- Improves the microclimate around the plantation.
- Increases the production.
- Easy to install.
- Economic and secure solution.

SHADE NETTING

Shade nettings are designed to protect the crops and plants from UV radiation, but they also provide protection from climate conditions, such as temperature variation, intensive rain and winds.

Better growth conditions can be achieved for the crop due to the controlled micro-climate conditions “created” in the covered area, with shade netting, which results in higher crop yields. All nettings are UV stabilized to fulfill expected lifetime at the area of exposure. They are characterized of high tear resistance, low weight for easy and quick installation with a 30-90% shade value range.

FENCE NETS

Fence nets are multiple application products which can be used for the creation of fences around specific pieces of land, fields or gardens. Fence nets protect the area which is surrounded by the net from being seen from the outside, as well as providing protection against the dust, the wind and undesired trespassers. A cost effective, quick and visual attractive solution to fencing.

TECHNICAL SPECIFICATIONS

Application	Weight in gr/m ²	Shading Effect in %	Maximum width in m	Roll/length
Shade	50 - 200	35 - 90	5	50/100m
Shade	43, 45	45	8	25m/50m
Shade	56	50	5	100m
Shade	50	50	16	50/100m
Fence Net	105 - 200	40 - 90	5	50/100m
Tennis Fence Net	170	90	3	50/100m
Windshield	105 - 200	35 - 90	5	50/100m
Windshield	170	90	3	50/100m

Available colours: blue, black, red, green, white, yellow, grey, orange and brown.

ANTI HAIL NETTING

- Made from HDPE.
- Weight: 60 gr/m².
- Maximum width: 5 m.
- Colour: transparent.
- Contains reinforced edges at side and middle.
- Protects plantations from hail falls, heavy winds and heavy rainfalls.
- Ideal for all kind of plantations and vineyards.
- Easy to install.
- Economic and secure solution.

WINDSHIELD NETS

Windshield Nets are designed for the protection of crops, small trees and plants from strong winds. They are UV stabilized in order to ensure durability and they are easy to install. There is Loop line possibility so that bean-pole can be fitted in and hold the net towards the wind.
