

**KARATZIS S.A. AT THE INTERNATIONAL AGRICULTURAL EXHIBITION
EIMA 2016 IN BOLOGNA, ITALY**

It was with great success that the Karatzis Group participated in the International Agricultural Machinery Exhibition EIMA 2016 which took place between 9-13 November 2016 in Bologna, Italy.

Following closely all developments within the sector, the Karatzis Group has a strong presence at international exhibitions relating to agricultural and economic development, taking part on this occasion in the EIMA 2016 exposition in Bologna, Italy. One of the largest exhibitions of the neighbouring country, it is organised by FederUnacoma, the Italian Machinery Manufacturers Association of the Italian Ministry of Agriculture, in collaboration with ICE.

This year's EIMA 2016 event was attended by more than 285.000 visitors and 40,000 industry professionals from 140 countries. Successfully representing Greece, the Group's booth exhibited its wide range of netting products and was visited by professionals in the agricultural sector from all over the world - from South America and North & Sub-Saharan Africa to the Middle East, South-East Asia, the Balkans and Oceania.

Staying true to its vision and seeking new challenges, as well as continually participating in international exhibitions which concern the agricultural economy and development, the Karatzis Group aims to further expand its commercial development and customer base internationally. With a strong presence in more than 55 countries, the Group is a global leader in the field of netting and continues to conduct business with the ultimate goal being the development of both Karatzis S.A. and Greek trade.
